

K-LOVE is a very special radio station to my family. A station such as K-LOVE is so enjoyable because there are NO commercials. We enjoy the Christian music and it is so uplifting just to start your day on such a positive note.

I can't imagine not having K-LOVE to listen to. It plays a vital role in our community. You can request prayer for yourself or others and it shows how others care. Our community would be devastated if we didn't have the station.

I believe with all my heart that having a station such as K-LOVE is a positive influence on our young people. With more and more people listening, we will be able to take the Word out into the world to share. What you give is returned many times over, so removing this station would not be a good thing.

Thank you for this opportunity to share with you.
